To Whom It May Concern:

I have just heard about the ban you are trying to pass. Who are you to tell me that I can't smoke in public places or even in my own home? It is sickening that the government wants to have complete control over its' citizens. What happened to this being a free country? This ban doesn't seem to fit under that description.

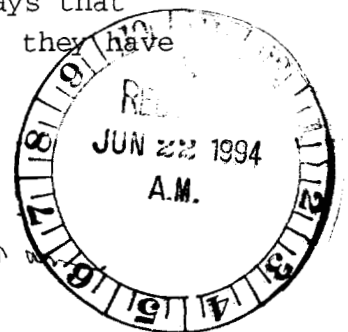

I think you need to concentrate on things that concern you and, I believe, that is job safety and not smoking in the home. It really burns me up that you are trying to take every bit of personal freedom away from me. That just doesn't seem fair!

You need to reconsider this proposal. There are other ways that smoker and non-smokers can work together to live peacefully, they have been doing it for years. This proposal is too drastic!

Sincerely,

Theda Rodman
